February 4, 2010

To whom it may concern:

On behalf of the Olmsted Parks Conservancy, I write this letter in support of the work of Environs Inc. Having worked with the Environs team over the past several years, I have no reservations providing this recommendation. Their ability to plan, design and build successfully in collaboration with different groups of people sets them apart from many other consultants.

Environs and the Olmsted Parks Conservancy have collaborated on several projects in recent years including: the renewal of the Big Rock area of Cherokee Park, a master plan for the Hogan Fountain Area of Cherokee Park, restoration of the Sunny Hill area of Iroquois Park, and master plans for the renewal and restoration of both Tyler and Willow Parks.

Environs has done an excellent job keeping our projects on schedule and within budget. Their team is able to organize, facilitate and complete projects in a timely manner while managing the costs and keeping everyone informed of the progress and issues. I offer my recommendation for Environs based on several years of experience in working with them. Their talents and expertise would be an asset to any project.

Sincerely,

Mimi Zinniel  
President/CEO  
Olmsted Parks Conservancy
